REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claims are directed toward an electrochemical cell having a non-mercury added zinc anode comprising uniformly shaped zinc particles having smooth surface finishes.

The prior art (Urry 6,022,639) teaches an electrochemical cell having uniformly shaped zinc particles having consistent surface finishes. However, the prior art does not explicitly state the zinc particles have smooth surface finishes. Note the present application under examination and the prior art patent (Urry 6,022,639) were commonly owned at the time the claimed invention was made (see Applicant response of 8/23/05). Therefore, Urry is not available under 35 U.S.C. 103(a) as prior art against the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tracy Dove whose telephone number is 571-272-1285. The examiner can normally be reached on Monday-Thursday (9:00-7:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Pat Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
